

# Negative vs Positive

Add to negative,  
guess bigger # neg.

Started w/factors of product

When product is correct, but wrong sign  
then just flip both signs

Sum could tell how far away the #s  
are from each other

Sum	Product
-1	-30

Negative \* positive

-6	5
----	---

-10	3
-----	---

-15	2
-----	---

-30	1
-----	---
