

Online Practice Tools for Math Class

MathXL[®] for School

MathXL For School is an online practice program that learners can use to help them with Integrated Math courses! Here are some features of MathXL that might be useful:

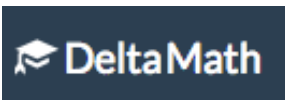

- Infinite number of practice problems in the “Study Plan”
 - Click “Study Plan” on the left side and click “All Chapters” to find the chapter you want to practice on.
- Review sets assigned by your teacher
- Learning Aids
 - Help Me Solve This, View an Example, Videos, Glossary, Ask My Instructor, Instructor Tips

To Register

1. Go to mathxlforschool.com and click on Register Student in the green box on the right side of the page.
2. Create a username and password. (Tip: It might be a good idea to write this in your Planner and/or to give this to Ms. Walczak.)
3. Use the access code: **HSMXL - NOMAD - BOSSY - CAVAN - RERUN - BODES**
4. Fill in all the necessary information. You can use your school email address (the one you use to log in to the Chromebooks) if you want.
5. Use the Course ID:

Math I: **XL07-91RZ-1020-4GL3**

Honors Math II: **XL07-I1QX-4020-6GP3**

DeltaMath is another tool to give an infinite number of practice problems! These problems are mostly skill-based. There are an infinite number of examples and problems to work through! Each problem provides an example and help if you get it incorrect. This is a more user-friendly site than MathXL for School, but does not offer quite as much because it doesn't line up exactly with our curriculum.

Username: School email address used to get on a Chromebook

(ex: johnd.a34b@rimschools.org)

Password: mathmath

MathXL and DeltaMath are not required!

They are just great tools to help all learners to be more successful in math class! Use them whenever and however you'd like.
